MBK Engineers is seeking an experienced Hydraulic Engineer for a position in Sacramento, CA.

MBK Engineers, is a well-respected consulting engineering firm serving a wide variety of water resources oriented clients for over 40 years. As such, the firm is able to devote its entire professional staff to the resolution of complex water resources issues or projects.

The firm's consultants have long been recognized as premier experts by their clients and peers during their extensive careers. The firm's principals are active participants in the company's ongoing projects. MBK has a large and diverse client base which has consistently grown over the past 40 years. The client base consists largely of longtime repeat clients, and many others referred to the firm by current or previous clients. High-quality work, on time and within budget are the basis for MBK's outstanding reputation and continued growth.

Job Description

MBK Engineers is in search of an experienced Hydraulic Engineer to support projects related to flood protection, flood damage reduction, and river and floodplain evaluation & delineation. Primary duties include formulating, preparing, and performing hydraulic analysis, collecting and processing data, and preparing memos and reports. Will work independently as well as lead other engineers and technicians.

Experience Required

- A Bachelor of Science degree or higher degree is preferred.
- Professional Engineers license.
- Minimum 5 years experience.
- Experience with HEC-RAS, FLO-2d, HEC-HMS, HEC-1, RMA-2 preferred.

Please email cover letter and resume to hr@mbkengineers.com.
